Company:

Since 1952

M. Frank Higgins is a Connecticut based, small business located in Newington, CT. When Michael Francis Higgins opened his small flooring business in Connecticut in 1952, he couldn't imagine that nearly 60 years later his family business would steadily increase in annual sales, employ more than 40 quality people and provide the flooring for many of the region's largest and most renown public and commercial facilities.

Key Products and Services

We consult on, sell and install resilient floors, carpets, ceramics, epoxy floors and wood floors. Many customers rely on us for advice on floor preparation and moisture mitigation. We are also proud of our relationships with the GC's.

One of our specialty areas includes Private Schools, Public Schools and Universities and Colleges. We work in combination with some new sub-floor and old sub-floor conditions to provide a variety of quality floors for beautification and functionality.

Company Principals:
